# gpVector2 MICROLOCi

**The gpVector2 micro LOCi – the most powerful and smallest portable GPS locator.**

Features: Quad-Band GSM capability for worldwide connectivity, a water-resistant case for all-weather use and a high capacity battery for days of continuous use.

With superior sensitivity, fast time to first fix (TTFF) and A-GPS capability, the micro LOCi provides fast and accurate location information, packaged in a small, light weight robust case ideal for personal location services such as: monitoring Children, Wandering Seniors, Athletes and Pets.

### Technical Specifications:

- ~ Quad-Band 850/900/1800/1900MHz
- ~ Compliant to GSM phase 2/2+ Class 4 (2W @ 900MHz)
- ~ Class 1 (1W @ 1800/1900MHz)
- ~ Operating Temperature Range: -10° to +50°C
- ~ Battery Capacity: 1250mAh
- ~ Dimension: 66 x 36 x 20mm
- ~ Weight: 60g

### Interface:

- ~ Mini USB connector for charging
- ~ LED Indicators: Power / GSM network / GPS
- ~ 2 Buttons: Power / Function

### GPS:

- ~ A-GPS Chipset: SiRF Star III
- ~ Channels: 20 channel all-in-view tracking
- ~ Reacquisition: 0.1 sec., average
- ~ Hot Start: 1 sec., average
- ~ Warm Start: 38 sec., average
- ~ Cold Start: 42 sec., average

### Main Function:

- ~ GPS Position
- ~ Fixed Time Reporting
- ~ Emergency Alarm
- ~ Geo-fencing Alarm
- ~ Low Battery Alarm
